

This diagram illustrates the assembly of a three-part plastic container. The components are shown in an exploded view, revealing their interlocking features. The top lid is a shallow, circular dish with a central raised area and a small circular protrusion. The middle ring is a wide, flat band with a central circular opening and a small circular protrusion. The bottom base is a shallow, circular dish with a central raised area and a small circular protrusion. The assembly is shown in a perspective view, highlighting the interlocking of the components.
