

A technical line drawing of a multi-compartment storage bin, shown in a perspective view. The bin is rectangular with a grid-patterned base. It features a central divider that runs the length of the bin, creating three main sections. Each section is further divided into smaller compartments by vertical walls. The drawing uses solid lines for the main structure and dashed lines to indicate internal components or hidden edges. The entire drawing is rendered in a light gray color on a white background.
