

This diagram illustrates the exploded view of a two-part plastic container. The top part is a lid with a curved, domed shape, featuring a series of vertical ribs for structural reinforcement. The bottom part is a rectangular base, also with vertical ribs. Both components have locking mechanisms consisting of a series of small, rounded protrusions on the inner rim of the base and corresponding recesses on the lid. The entire assembly is shown in a light blue color against a white background.
