

A 3D perspective view of a rectangular wire mesh tray with a lid. The tray is shown from an isometric perspective, with the lid being lifted off the base. The base and lid are constructed from a series of parallel, slightly curved metal strips that form a mesh. The base has a small rectangular label on its side with some illegible text. The lid is hinged to the base and is shown in an open position, revealing the interior of the tray. The entire assembly is rendered in a light gray color against a white background.
